

# 100kWh Foldable Container for Rural Use

## Overview

---

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates. This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations. It's optimized for grid-tied setups requiring continuous and stable output. It's road-ready and quick to deploy, making it ideal for remote worksites, disaster relief, events, and temporary camps — and in many cases, it can replace grid connections or offer support for a variety of applications. It features foldable solar panels and ISO shipping containers.
