

Airports use Asia-Pacific folding containers for exchange

Overview

During the pandemic, national carrier Vietnam Airlines demonstrated adaptability by utilising 12 wide-body aircraft to transport cargo in both passenger and belly compartments, including modifying narrow-body aircraft to accommodate goods.

SINGAPORE, November 3, 2025 — Federal Express Corporation, one of the world's largest express transportation companies, has further enhanced its intra-Asia network to meet growing trade demand in Southeast Asia, increasing connectivity, capacity and agility for Asian businesses. FedEx has. When the Japanese registered Hakone Maru set sail for the first time from Japan on August 27, 1968, on its voyage to Oakland, United States it was a giant step in maritime cargo transportation - especially the transportation of standardized box containers. On its maiden voyage, it carried 752. The Asia Pacific container transshipment market size was valued at USD 9.4 billion in 2023 and is projected to grow at a CAGR of 3. Strategic port infrastructure development is addressing major market needs and opportunities. While it is fundamentally a duopoly facing freight forwards and shippers as a choice, railways are emerging as strong contenders in looking to capture cargo from both modes. So it is that the 4FOLD foldable container from Holland Container Innovations (HCI) is providing a novel solution that not only reduces CO2 but offers a number of additional benefits — more efficient to ship empties back (by a ratio of four to one!), space saving, and faster handling at the. Requires importers to take self-comply with new practices that ensure security of cargo throughout the entire supply chain. boarder C-TPAT membership is available to importers, carriers, brokers, warehouse operators.
