

# BESS price of solar panels for Hungarian factories

## Overview

---

As of most recent estimates, the cost of a BESS by MW is between \$200,000 and \$450,000, varying by location, system size, and market conditions. Based on current prices in 2023, any PPA in Europe priced below €75 per MWh would result in a financial loss for the BESS owner. Hungary's solar energy sector is booming, and photovoltaic (PV) module prices play a pivotal role in shaping project feasibility. With a strong background in photovoltaics, they focus on the development of photovoltaic power plants and distribute solar panels to. Hungary averages between 1,950 and 2,150 hours of sunshine per year, with an intensity of 1,200 kWh/m<sup>2</sup> per year. <sup>1</sup> In Hungary, the annual average potential for PV energy ranges from 1,050 to 1,450 kWh/kWp. We operate in 5 markets, offering solar components only from the best brands. <sup>3</sup> The highest prices were seen in August 2022, reaching approximately 552.
