

Belgian rack-mounted energy storage battery investment

Overview

I4B - The Belgian Infrastructure Fund - has announced a €30 million investment in a major battery energy storage system (BESS) project in Visé, Belgium. Photo by Anna Vasileva The project is developed in Vise, Liege province, in partnership. The energy transition in Belgium and the 2030 climate strategy aims to reduce emissions by accelerating renewable generation and electrification. Rooftops are filling with solar arrays, heat pumps are replacing boilers, and efficiency upgrades are becoming standard. Yet, one crucial component still. Project owners BSTOR and Energy Solutions Group have started building separate BESS projects totalling 440MWh of capacity in Belgium, following financial close, both of which will use Tesla Megapacks. This critical infrastructure will play a strategic role in stabilizing the.

Belgian rack-mounted energy storage battery investment

[Construction starts on 440MWh of Tesla battery storage in Belgium](#)

Work started in October, and the project in La Louvière is scheduled to be operational by summer 2026 and will require an investment of around EUR70 million (US\$72 million).

[Belgian fund invests in 600-MWh battery storage project , Energy](#)

I4B - The Belgian Infrastructure Fund has invested EUR 30 million (USD 34.6m) in a 600-MWh battery energy storage system (BESS) project in Belgium, one of the country's largest to ...
