

Botswana charging solar power home

Overview

For this project, our engineers designed a custom 4.8kW + 10kWh off-grid system, built around three essential components:

- A 5kW inverter for solar energy conversion and power management.
- A 10kWh solar battery pack using high-performance lithium technology.

With deep understanding of Botswana's energy needs, we provide reliable, efficient, and sustainable systems designed to empower homes, farms, and businesses across the country. Let's build a. That's exactly what one household in Botswana is experiencing, thanks to Namkoo Power's 4. This isn't just another installation. Botswana's abundant sunshine—averaging 3,200 hours annually —positions it as a prime location for solar PV panel adoption. With rising electricity costs and frequent grid. Over 35 Years Combined Experience SolarBW has over 35 years' of combined experience designing and installing large scale commercial and residential Solar PV systems in South Africa, Botswana, the Indian Ocean Islands and Zambia.
