Power lines along the Kuala Belait Highway in 2023. 842 Kg Jangsak and its surrounding area (9:00 AM - 3:00 PM) ✕ Planned Maintenance Work: Thursday, 02 October 2025 — Belait District, from Spg. X13 to Simpang 314 along Jalan Maulana and its surrounding area (8:15 AM. Brunei is situated in Southeast Asia on an island called Borneo and has a land area of 5,765km² with a population of 460,000 people. There are two power systems in Brunei. Electricity can be generated in two main ways: by harnessing the heat from burning fuels or nuclear reactions in the form of steam (thermal power) or by capturing the energy of natural forces such as the sun, wind or moving water. Electricity production tends to closely match demand, which in turn. Bandar Seri Begawan, The Gulf Observer: Brunei Darussalam's electricity infrastructure remains robust in meeting current demand, supporting both residential needs and the nation's economic activities, including foreign direct investment (FDI).
