

Can a person step on a photovoltaic panel

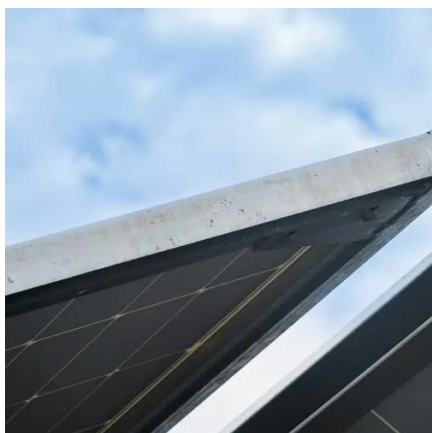

Overview

While it's certainly possible to walk on solar panels, it is not recommended. Solar panels are made of very thin and fragile tempered glass, and the weight and pressure of a footstep could easily crack the glass or pop it out from its frame. This may occur if you are installing equipment on your roof where your panels are, if you are performing roofing work, or if you are cleaning your solar panels. Always take precautions when handling or cleaning them. Can you touch a washing machine or a toaster?

Yes, and you shouldn't be electrocuted.

Can a person step on a photovoltaic panel

Can You Walk On Solar Panels?

Walking on solar panels is not recommended as it can damage delicate components like photovoltaic cells, tempered glass, and wiring, reducing their effectiveness.

[Can I walk on solar panels? Yes, but you shouldn't.](#)

Yes, and you shouldn't be electrocuted. All these appliance are UL listed, just like a solar panel is. Walking on a solar panel is physically possible. You may create micro-cracks of your solar ...
