

Current price of solar energy storage power in Moldova

Overview

As Moldova continues its energy market reform, authorities anticipate a future transition from fixed tariffs to a contract for difference (CfD) based model once the wider regulatory framework is ready. Storage is a compulsory element of each bid. The Moldovan Agency for Energy Regulation (ANRE) has set fixed tariffs and a ceiling price for electricity generation from renewable energy sources, including for the upcoming tender aimed at constructing wind farms with a total capacity of 170 megawatts (MW) and battery storage with a capacity of. Moldova's Ministry of Energy says 60 MW of solar awarded in the country's first renewables auction is now online, with developers receiving 15-year fixed-price guarantees at MDL 1. Moldova has introduced an electronic guarantees of origin system to certify renewable energy. Preparing for the 2nd annual Moldova Energy Forum, organised by The Voice of Renewables in Chisinau on 10 June 2026, we present a comprehensive summary of the results of the first auction and the outlook for the upcoming round. The inaugural 2025 renewable energy auction attracted significant. The average electricity price in Moldova has decreased from ~\$170/MWh in 2023 to ~\$133/MWh in 2024. The top amount of capacity installed in Moldova in 2024 was in Solar at 407. With solar and wind capacity growing at 12% annually, the country aims to reduce reliance on imported electricity by 35% before 2030.
