

Double-barreled tile roof photovoltaic support

Overview

Designed to accommodate solar modules of all sizes on sloped tile roofs, these brackets encompass several standard components such as aluminum rail profiles, tile hooks, end/mid clamps, and other solar mounting accessories. Schletter roof hooks are heavy-duty, quick and easy to install, and suitable for all common types of roof and tile, with optimized geometries to prevent tile breakage. Designed to comfortably withstand heavy wind and snow loads, they're the perfect choice regardless of structural conditions—and. The Tile Replacement Mount provides a fast and easy way to install solar on tile roofs while protecting against water intrusion. Simply remove the tile and replace it with the Tile Replacement Mount. Other mounting systems used with traditional shake, slate, and barrel tile roofs may also be used to meet these conditions. The IronRidge All Tile Hook has high wind and snow load. Each type, such as Spanish or mission tiles, has a distinct profile, requiring specialized mounting solutions to ensure proper fit and function.

Double-barreled tile roof photovoltaic support

[Solar Tiled Roof\(TM\) , Roof. Design. Energy.](#)

Our design ensures that each solar tile is accessible, allowing for easy replacements without disrupting the entire roof. This modular design guarantees the durability and efficiency of your Solar Tiled ...

[The Ultimate Guide to Mounting Solar Panels on a Tile Roof](#)

For any standard residential or commercial pitched tile roof, a mechanically attached system using roof hooks and a rail system that anchors into the roof's rafters is the only safe and ...
