

Europe renewable energy vatican city

Overview

The Holy See and the Italian Republic have signed an agreement to build an agrivoltaic plant in the Vatican's Santa Maria di Galeria area just outside of Rome, aiming to supply Vatican City State with renewable energy. By Vatican News.

ROME (AP) — Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the world's first. On May 29, 2025, the Vatican City officially transitioned to solar power, marking a significant shift in the European energy landscape. This project was. The Vatican's renewable energy achievement demonstrates how even the world's smallest nations can join countries running on renewable energy. By Vatican News Upholding and taking action on a shared commitment to promote.
