

# European power distribution room network cabinet rack type

## Overview

---

Designed to manage power supply within 19" server racks or outdoor enclosures, this Germany type PDU (Power Distribution Unit) features multiple outlets, allowing you to distribute power to a wide variety of computers and other network equipment within a rack cabinet. Our rack power distribution units are constructed from aluminium extrusion and finished in black powder coat for maximum strength and durability. Optimise power delivery and control within your 19-inch racking systems with Penn Elcom's comprehensive range of power distribution units (PDUs). Our collection offers a wide selection of reliable PDUs with various plug types, sizes, and configurations to suit the specific requirements of data. Eaton's rackmount PDU offering provides you with the power density and flexibility you require regardless of whether you're looking for PDUs for server racks or switching environments. Our Basic rPDUs meet a broad range of power distribution requirements and automated alerts. Vertiv™ Geist™ rPDUs offer important insights on how to improve data centre energy efficiency while enabling you to prevent downtime, providing notifications when user-specified.

## European power distribution room network cabinet rack type

### [Power Distribution Units , Reliable Rack Power & PDUs , Penn Elcom](#)
