

# Factory price battery storage in London

## Overview

---

In 2025, commercial systems typically range from £300 to £500 per kWh of storage, plus installation. Storage qualifies for capital allowances (like solar). Battery energy storage systems (BESS) allow you to store excess solar power and use it when it's most beneficial - usually outside daylight hours or during peak tariff periods. Daytime: Solar powers operations and charges the battery. Evening or high-demand times: Battery discharges to avoid. We take a look at the solar battery storage market in London to find out the costs and what you could save. WHICH?

-approved with 15,000+ happy customers. If you are a business that is thinking of investing.
