

Fiji 215 kWh energy storage cabinet equipment

Overview

It combines battery modules, advanced cooling, fire safety, and real-time monitoring in a compact design. A built-in local control screen enables on-site monitoring, strategy configuration, and remote firmware. HJ-G100-215F is a high capacity air-cooled energy storage system designed for outdoor industrial as well as commercial applications. With a power output of 100KW and an energy storage capacity of 215KWh, the system provides companies with an efficient energy management solution that helps optimize. As Fiji accelerates its transition to renewable energy, demand for reliable energy storage systems has skyrocketed. Designed for stable backup power and solar integration, it delivers reliable performance.

Fiji 215 kWh energy storage cabinet equipment

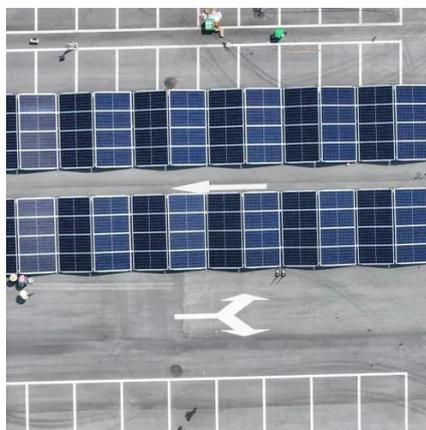

215kWh ESS Cabinet

High-voltage 215kWh outdoor battery cabinet with built-in cooling, fire protection & monitoring. Ideal for microgrids, solar-diesel hybrid systems & EV charging stations.

Outdoor Cabinet Energy Storage System

The HJ-ESS-215A is a high-performance 100KW/215KWh outdoor cabinet energy storage system featuring fast power response, all-in-one design, intelligent monitoring, and six-layer security design.

[215KWh Outdoor cabinet series industrial and commercial energy ...](#)

With a power output of 100KW and an energy storage capacity of 215KWh, the system provides companies with an efficient energy management solution that helps optimize energy consumption,
