

# Financing of standard power scale solar energy storage cabinet in port of Spain

## Overview

---

The €700 million (\$763 million) program, run by Spain's Ministry for Ecological Transition and the Demographic Challenge (MITECO), will offer matched-finance worth up to 85% of the cost of energy storage sites. How will the European Commission support large-scale energy storage in Spain?

The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain. Subsidies will be available. LCP Delta and Santander have combined their expertise to provide this report into the opportunity for investment in battery energy storage systems (BESS) in Spain. The only long-term forecasters who also support traders in real time. Each project can secure up to EUR15 million ( i.e. curtailment by 2035,Aurora's modelling shows. Renewable energy that would otherwise have been curtailed during periods when running costs surpass market prices would instead be used to charge LDES. The Príncipe Felipe Dock facility, located between the COSCO terminal and the Yacht Club on the breakwater, features 2,990 panels with a total capacity of 1,375.4 Wp, and can generate 2,296 MWh annually. It began operating at full capacity in January 2024 after a test phase in December.
