

# GCL Photovoltaic Energy Storage New Materials

## Overview

---

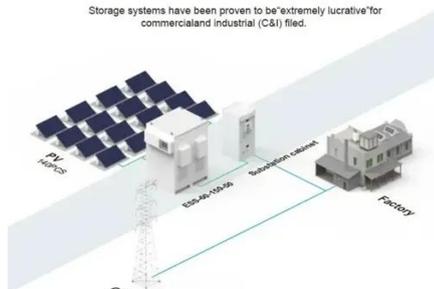

GCL Optoelectronic Material has launched a photovoltaic energy storage equipment production project with an investment of Yuan 570 million. The project, undertaken by Kunshan High-Tech Group, will focus on the production of perovskite photovoltaic modules for enterprises. Copyright © 2023 GCL-SI. GCL System Integration Technology strives to be the world's leading integrator of comprehensive energy systems. Golden Concord Holdings Limited (as referred as "GCL Group") is a green, low-carbon technology enterprise, focusing on diversified new energy, clean energy, and renewable energy solutions, such as wind, solar, energy storage, hydrogen, ammonia, and alcohols. GCL has consistently prioritized. We are sincerely committed to creating value for investors. As a world-leading R&D and intelligent manufacturer of photovoltaic materials, GCL TECH focuses on energy technological innovation, energy conservation and emission reduction in active response to the national strategy of "carbon peaking. Revolutionizing renewable energy with a \$80 million investment in perovskite photovoltaic modules, GCL Optoelectronic Material leads the way in sustainable solutions. As a major project in Kunshan City in 2024, the project is in charge of the Kunshan High-Tech.

## GCL Photovoltaic Energy Storage New Materials

### BASIC APPLICATION

Storage systems have been proven to be "extremely lucrative" for commercial and industrial (C&I) filed.

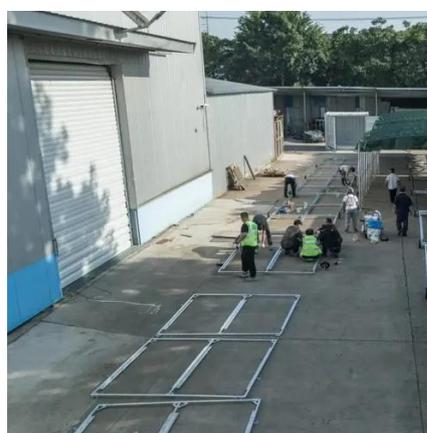

[How about GCL new energy storage materials . . .  
NenPower](#)

GCL's new energy storage materials encompass a range of benefits that cater to both environmental concerns and performance enhancements. Primarily, the materials demonstrate a ...

### GCL-Energy Storage

GCL provides photovoltaic energy storage products, covering energy storage products used in residential, C& I, utility and other industries.
