[Airbag Inflators & Initiators from Autoliv](#)

These small gas generators utilize an inflation method similar to their larger airbag counterparts. But their smaller size enables us to integrate them into our pyrotechnic seat belt pre-tensioning products.

US6874813B2

In recent years, new generators, called adaptive generators, have appeared so as to limit the risk of body accidents brought about by deployment of the airbag.

The Future of Car Safety

New-generation airbag gas generators feature multi-stage inflation, allowing airbags to deploy at different speeds based on crash severity and occupant size. This adaptive approach ...

Airbag Gas Generator

Airbag Gas Generator The airbag gas generator is a critical component responsible for deploying automotive airbags in response to commands from the vehicle's computer system.
