

Greek energy storage solar container lithium battery professional manufacturer

Overview

Over 200 scientists and experts across our 5 R&D hubs worldwide have developed our LFP lithium cells and continue exploring innovative battery technologies. The cells were prototyped in our Pilot Line, established in 2023, and are now in mass production by LiTH. Sunlight Group Energy Storage Systems is a prominent provider of innovative energy storage solutions, specializing in lithium-ion and lead-acid batteries for various applications, including renewable energy storage systems (ESS). This includes infrastructure investors and developers. The dynamic classification is indicative of the most recent project developments and milestones in the rapidly. KACO new energy, as a medium-sized company with dedication and a passion for research, stands for high quality engineering skills in the field of independent and decentralised energy supply. Our inverters are designed to support the use of renewable.
