

Grenada solar power home

Overview

In 2022, the country's first utility-scale solar power plant was completed. In addition to utility-scale projects, there is also a growing market for rooftop solar . We aim to empower Grenadians to move from energy derived from burning of destructive fossil fuels to renewable energy from sunlight. Start Saving Today! Reduced your monthly electricity bill. Free personalised consultation for each client. Hybrid Systems available with or without batteries. Join the energy independence movement by making your home fully self-sustainable with a solar power installation, and free yourself from rising energy costs with the help of hybrid inverters! Why Choose Lightwork Power?

What sets Lightwork Power Ltd. Through a thoughtful, prudent approach, our goal is to stabilise electricity prices in the short-term, and potentially lower prices in the future. We specialize in designing, installing, and maintaining systems for reliable cooling, energy savings, and a cozy indoor atmosphere. The Grenada government is committed to increasing the use of renewable. In April 2024, a household in Grenada successfully implemented a 20kWh wall battery home energy storage system provided by GSL ENERGY. This system, integrated with a Deye hybrid inverter and GSL PV solar panels, has transformed the way the family manages and consumes energy.
