

Grid modernization congo

Overview

Congo-Brazzaville modernises its power grid with World Bank and ENI support to end electricity shortages in Brazzaville, bolstering industrial growth and regional integration. Loudima, 21 August 2025 - Eni Congo announces progress on a major project to refurbish and improve the high-voltage (HV) power transmission network linking Pointe-Noire and Brazzaville, a pillar initiative to strengthen the long-term reliability and performance of the country's energy. From the riverfront ministries in Brazzaville to the gas-rich shoreline of Pointe-Noire, energy security has moved to the top tier of Congo-Brazzaville's national agenda.
