When your solar system produces more energy than you use, GSL battery allows you to store the surplus for later use. It can also recharge from the grid during off-peak hours when electricity rates are lower. Your stored energy is ready to be used whenever you need it—whether it's during the day, at. Completed in Q3 2023, this 1,200 MWh facility is Vietnam's largest battery storage project and a blueprint for sustainable urban energy management. It can meet the company's application needs such as peak shaving, dynamic capacity expansion, demand-side response, and virtual power. Discover how Hanoi's energy storage battery manufacturers rank in today's competitive market. This article explores key metrics, industry trends, and what makes Vietnam's capital a rising hub for sustainable energy solutions.
