

High-pressure type folding containers for port terminals

Overview

In 2013, HCI's 40-foot collapsible container, called 4FOLD, was approved by ISO (International Organization for Standardization) and CSC (Container Safety Convention 1972). It is, therefore, suitable for use by shipping lines and terminals. Foldable containers save up to 75% space and. The world's first 5-in-1 40' high cube shipping container that will revolutionize the intermodal shipping industry by providing significant cost benefits, improving empty container repositioning efficiencies, and lowering harmful CO2 emissions. A collapsed bundle of five SeaFold 40' containers. Staxxon's foldable containers -- which can be stacked in bundles -- are one solution to this. Staxxon designs foldable intermodal shipping containers, a solution designed to tackle 'empty running', whereby empty containers clog ports and hurt supply George Kochanowski is CEO of Staxxon, a company. A five-in-one foldable container design certified by the International Geneva-based International Standard Organization (ISO) could boost efficiency and transform the carriages of empties, claims Florida-based Compact Container Systems (CCS). Bundled set is 100% intermixable with existing ISO standard containers.

High-pressure type folding containers for port terminals

[Foldable shipping containers an answer to port congestion?](#)
