

# Home photovoltaic energy storage GoodWe

## Overview

---

GoodWe EcoSmart Home offers a suite of solar and energy storage solutions for households, enabling management of energy generation, storage, and usage. During the day, the PV array generates electricity which can be provided either to the loads, fed into the grid or charge. The Chinese company says that its new ESA series is available with a hybrid inverter ranging from 3 kW to 10 kW and storage capacities of 5 kWh to 48 kWh. The IP66-rated product supports an MPPT current of up to 20 A on the PV side and allows 200% PV oversizing, according to the manufacturer. EcoSmart Home enables whole-home backup. This robust solution ensures uninterrupted power during grid outages, swiftly switching to a backup source to keep essential appliances running. It offers convenience, resilience, and peace of mind. The GoodWe ET series is a Three-Phase, high-voltage, energy storage inverter that provides enhanced energy independence and maximises self-consumption for reduced electricity bills, through an export limit feature and time-of-use shifts.

## Home photovoltaic energy storage GoodWe

### GoodWe: Smart Energy Innovator

GoodWe is a global manufacturer and innovator of solar inverters, energy storage solutions and PV building materials for residential and business markets.
