

Household electricity price for solar power generation

Overview

Solar panels cost about \$21,816 on average when purchased with cash or \$26,004 when purchased with a loan for a 7. While that price tag seems steep, the electricity bill savings you get from solar panels make them a worthwhile investment for most Americans. With utility rates rising at a rapid pace, going solar is a way to take control of your electricity costs and hedge against energy inflation.
