

How is Hongxin photovoltaic bracket

Overview

The photovoltaic bracket is the supporting structure of a solar cell array, composed of galvanized or zinc aluminum magnesium material U-shaped steel or C-shaped steel and supporting connection accessories. It has the advantages of improving the efficiency of the photovoltaic system, protecting. After market analysis on May 20th, the concept of photovoltaic brackets reported an increase, led by a 3.695% increase in Zhongxin Bo, with stocks such as Tuori New Energy and Aikang Technology following suit. is a comprehensive manufacturer of photovoltaic bracket and solar module frames, integrating technical consulting, design, processing, manufacturing, The company has a strong technical force, and has been engaged in solar energy application technology research. Our Photovoltaic Bracket offers exceptional quality within the Solar Brackets category. Solar brackets are often manufactured using materials such as stainless steel, aluminum, or galvanized steel. " In his address, Wang Zhibin.
