

Huawei s PV inverters banned in Argentina

Overview

The European Solar Manufacturing Council (ESMC) today issued a clear and urgent warning: Europe's energy sovereignty is at serious risk due to the unregulated and remote control capabilities of PV inverters from high-risk, non-European manufacturers - most notably from China. " Is the European Union. Out of cybersecurity concerns, members of the European Parliament have urged the European Commission to restrict Chinese solar inverter manufacturers from accessing the EU's energy infrastructure. In an open letter to European Commission Executive Vice-President Henna Virkkunen and Energy and. pv magazine spoke with Garikoitz Sarriegi, senior project manager at Kiwa PI Berlin Ibérica, about the Reuters report published on Wednesday that devices susceptible to spying and sabotage had been found in inverters and batteries from China.
