Nairobi, Kenya - [16 August 2024] Huawei Digital Power East Africa unveiled its latest innovation in the commercial and industrial (C&I) solar market, the 150K series inverter, to a large group of energy sector partners, installers and EPC's, at a launch event in Nairobi. This launch marks a. Grid-tie inverters are specialized devices that convert direct current (DC) electricity, generated by solar panels or other renewable sources, into alternating current (AC) electricity, which is the standard used in most homes and businesses. Whether you're upgrading your solar system or starting from scratch, this inverter provides unmatched reliability and power output. Perfect for both residential and commercial installations, Huawei grid-tie inverters seamlessly integrate into your solar system to help.
