

Iges amsterdam plant

Overview

Australia-headquartered Integrated Green Energy Solutions (IGES) will go online in Amsterdam in six weeks. The Australian technology installed at the site will eventually process up to 400 tonnes/day of end-of-life, non-recyclable plastic to produce 140 million litres of fuel/year. IGES Amsterdam uses plastic feedstock that is polluted in such a way that it is not. IGES Amsterdam develops 'Plastic to oil' projects using innovative but proven technology. The first project will be developed in the Port of Amsterdam.
