

Iran wireless solar-powered communication cabinet inverter

Iran wireless solar-powered communication cabinet inverter

[Hidden Devices in Solar Grid Inverters and Batteries](#)

Over the past nine months, forensic security teams have logged multiple brands of Chinese solar inverters containing hidden wireless communication equipment. Investigators have also discovered hidden ...

['Rogue' communication devices found on Chinese-made power inverters](#)

These communication capabilities are disclosed in what's called a software bill of materials - a listing of the components that comprise the inverter package. The communication devices uncovered by the ...

U.S. officials Investigating Rogue Communication Devices in Solar Power

These inverters, which are essential components that convert direct current from solar panels into alternating current usable by the electrical grid, were found to contain undocumented cellular radio ...

[Rogue Communication Modules in Solar Inverters: Radiflow Threat](#)

In May 2025, Reuters disclosed that Chinese-made solar inverters were being delivered with undocumented cellular radios --SIM-card slots and RF circuitry secretly soldered onto their PCBs and ...

[The Hidden Threat: How Rogue Communication Devices in Solar Inverters](#)

This investigative article exposes the discovery of undocumented communication devices hidden in Chinese-made solar inverters, creating unprecedented vulnerabilities in global power grids.

[Hidden communications devices found in Chinese solar power inverters](#)

U.S. energy officials are reassessing the risk posed by Chinese-made devices that play a critical role in renewable energy infrastructure after unexplained communication equipment was found inside some of ...

[Communications Backdoor in Chinese Power Inverters](#)

Reuters was unable to determine how many solar power inverters and batteries they have looked at. The rogue components provide additional, undocumented communication channels that could allow ...

[Rogue communication devices found in Chinese solar power inverters](#)

The two people declined to name the Chinese manufacturers of the inverters and batteries with extra communication devices, nor say how many they had found in total.

Beware the "rogue communication devices"

Reuters published a story yesterday that seems alarming on its face -- Chinese manufacturers may be putting secret communication devices in our solar inverters.

[Iran pushes for local inverter production amid rapid ...](#)

Iran has committed to a plan to support local manufacturing of solar inverters as the country's solar power generation continues to surge.
