

# Is it good to install photovoltaic panels

## Overview

---

The pros of using solar panels include a lower carbon footprint, lower electric bills, potentially higher home value and tax credits. Some or all of the mortgage lenders featured on our site are advertising partners of NerdWallet, but this does not influence our. Solar panels are an upfront investment that can save homeowners a significant amount of money in energy costs over the life span of the panels. With current tax credits and incentives, the average payback period for solar panels is between six and 10 years. In other words, you can recoup the money. Solar panels are built to work in all climates, but in some cases, rooftops may not be suitable for solar systems due to age or tree cover.
