

Is it necessary to install a solar container outdoor power in Tokyo

Overview

All new detached houses in Tokyo after April 2025 are required to have solar panels installed. However, if you are purchasing a property in a different part of Japan, it's possible that solar panels may not be mandated in the region. There has been a great response to the Tokyo Metropolitan Government's announcement in 2022 of “ the mandatory installation of photovoltaic power generation for new buildings ” and the term “the mandatory installation” seems to have made a particularly strong impression. This directive is a key part of the city's comprehensive strategy to achieve net-zero carbon emissions by 2050.
