

Join the agent of waste photovoltaic panels

Overview

The difficulty in handling solar panel waste lies in managing the large amount of waste, retrieving valuable materials, and controlling toxic substances. By adding your information to the registry, you can ensure your panels will be included in our program. If you are disposing of solar panels. This has given rise to solar panel recycling companies, safeguarding the environmental benefits of solar energy from improper disposal. Universal waste handlers that accept more than 100 kilograms (or 200 pounds) of PV modules from any offsite source or that generate 5,000 kilograms (or 10,000 pounds) or more of PV modules in the calendar year 2024 shall submit a completed written annual report by February 1 of 2025.
