Overview

Metal roofs with standing seams offer the ideal mounting scenario in 2025, allowing zero-penetration installations that preserve roof warranties while providing superior structural support and longevity matching. S-5! offers a variety of engineered solutions for mounting solar PV and balance of system components on both standing seam and exposed-fastened metal roofing. Each year for the Rooftop Solar BOS Buyer's Guide, we reach out to every manufacturer in this. At Roof Tech, we've been redefining solar mounting solutions since 1994. Built on decades of Japanese innovation, every product we design is engineered to stand up to the harshest conditions - from heavy snow loads to torrential rains, hurricanes and even typhoons.
