

London retail store energy storage

Overview

The UK's capital hosts over 40 specialized energy storage firms, with the sector growing 28% faster here than the national average according to 2024 industry reports. Whether you have a single store or a chain with dozens of locations, with JS Energy you choose a future-proof energy solution. The company's proprietary technology uses liquid air as the storage medium and its custom designed Liquid Air Energy Storage (LAES) solutions can deliver anywhere. As one of the UK's leaders in commercial solar and battery installation, we can help you to future-proof your business against rising energy costs and win more contracts with improved ESG credentials. WHICH?

-approved with 15,000+ happy customers. Designed for UK businesses and local authorities, our products help you protect the legacy of your operations and achieve sustainability. Ever wondered what keeps the lights on in London when half the city is binge-watching Bridgerton during a winter blackout?

Meet the unsung hero: the London energy storage system. Store surplus solar or off-peak grid energy to power your site on demand. Reduce diesel dependency, lower emissions, and prevent costly product loss.
