

# Longi New Energy solar inverter

## Overview

---

Backed by advanced technologies, LONGi solar panels feature excellent power ratings and top conversion efficiencies, and can be used across all market segments. LONGi's field-proven bifacial modules deliver added performance benefits and long-term reliability. At the key node of intergenerational transition of global Photovoltaic (PV) technology, the back contact (BC) cell technology is leading the new-generation PV technology paradigm revolution, becoming the core engine to drive industry cost reduction and efficiency improvement and realize energy. Q: Can you get the solar panel customized for us ?

A: Of course, brand name, solar panel color, designed unique patterns available for customization. Q: What kind of service can you provide once we place the order?

A: After we received the order, we will arrange the production, our QC members. Design institutes/companies/individuals worldwide are invited to submit design proposals for solar power plants using LONGi's Hi-MO 9 modules. LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy. SOLAR STREET LIGHT WITH MONI. P-Type HPBC Monofacial Module 565-600 LR5. From rooftops to utility-scale plants, our solutions are designed to perform everywhere solar matters.
