[Mexico announces battery storage mandate for renewable energy ...](#)

Future wind and solar energy projects in Mexico will be required to colocate battery energy storage systems equivalent to 30% of their capacity, a senior government official told the ...

[Mexico gives green light to private sector for 3,320 MW of renewables](#)

The Mexican government has announced the approval of 20 private renewable generation projects with a combined installed capacity of 3,320 MW and 1,488 MW of energy ...

[Mexico advances new wave of large-scale solar and storage projects](#)

Mexico is seeing a surge of large-scale solar and battery storage proposals across multiple states following an October decree that sets clearer rules for private energy investments.

[Mexico Solar 2026: Growth Meets the Storage Bottleneck](#)

The year 2026 marks an inflection point for Mexico's energy sector. New secondary regulations are reshaping how distributed generation interacts with the grid, redefining net-metering mechanisms, ...

[Mexico advances new wave of large-scale solar and storage projects](#)

In October, Spanish energy company Iberdrola announced plans to move ahead with two solar projects totaling 535 MW in Mexico, marking a renewed commitment to the country's energy ...

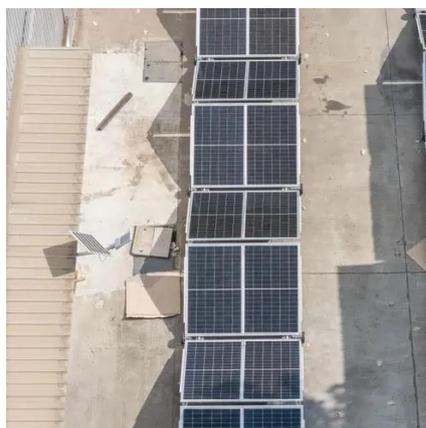

Mexico's New Energy Storage Regulations Require 30% Battery Storage ...

According to the regulations promulgated in March 2025, all new solar and wind power projects must be equipped with battery systems equivalent to 30% of their installed capacity, with a ...

[Mexico's 30% Battery Storage Mandate Reshapes Renewable Energy ...](#)

Mexico's new 30% battery storage mandate is set to transform the renewable energy sector. Learn how this policy impacts grid stability, private investment, and the future of energy ...
