

New Zealand Data Center Battery Cabinet Explosion-proof Type In Stock

Overview

Designed to meet stringent safety standards, including FM6050, OSHA 1910. 106, and NFPA 30, this cabinet is ideal for workplaces where battery charging presents potential risks. The cabinet offers enhanced fire resistance, constructed with double steel walls featuring a. The doors of this Lithium-Ion Battery Storage Cabinet have 2 factor latching with 3 x 304 stainless steel slam shut catches on the inside. On the outside - 2 x 304 Stainless Steel latches join the doors together to become one - mitigating the chance of the doors blowing open in a multi - battery. For larger businesses, this Lithium-ion battery cabinet makes the most of the clever double-wall, sheet steel design, which provides a thermal air defence to slow the advance of any battery fire. You can add a fire-spraying system for extra safety. Sensors help keep the temperature and moisture steady. When these batteries fail, thermal runaway can cause fires, toxic gases, and costly damage. Our lithium battery storage cabinets provide secure storage and controlled charging without breaking. Secure and efficient lithium-ion battery charging cabinet with 20 sockets, fire-resistant construction, and advanced safety features for professional environments.
