

New policies for wind and photovoltaic power generation

Overview

Department of the Interior's August 2025 order adds new permitting hurdles for wind and solar on federal lands. Learn how capacity density rules, stricter NEPA reviews, and longer timelines could impact your projects—and how to stay ahead. In the wake of this directive, the federal government has taken actions to encourage the deployment of renewable energy and other low-carbon energy sources. Actions to expand generation and consumption of solar and wind energy are seen in three distinct arenas: (1) incentivizing renewable energy. A recent order from the U. power generation for the next two years. As a result of new solar projects coming on line this year, we forecast that U. solar power generation will grow 75% from 163 billion kilowatthours. The new tax law, commonly referred to as the One Big Beautiful Bill Act, rolled back many clean energy tax credits and imposed new restrictions, pressuring early-stage wind and solar pipelines. The One Big Beautiful Bill Act, which passed in July with exclusively Republican support, accelerated the phaseout of tax credits.

New policies for wind and photovoltaic power generation

[Federal Lands and Renewable Energy: What the New DOI Order ...](#)

The U.S. Department of the Interior's August 2025 order adds new permitting hurdles for wind and solar on federal lands. Learn how capacity density rules, stricter NEPA reviews, and longer ...

[Global spatiotemporal optimization of photovoltaic and wind power to](#)

Here we present a strategy involving construction of 22,821 photovoltaic, onshore-wind, and offshore-wind plants in 192 countries worldwide to minimize the levelized cost of electricity.

[Interior's new solar, wind policy sparks concerns of 'shadow ban'](#)

A new policy requiring the Interior secretary to approve all aspects of solar and wind project permitting has opened the floodgates for critics who say it's the clearest signal yet that green ...

Solar and wind to lead growth of U.S. power generation for the next ...

In our latest Short-Term Energy Outlook, we forecast that wind and solar energy will lead growth in U.S. power generation for the next two years. As a result of new solar projects coming on ...

[2026 Renewable Energy Industry Outlook, Deloitte Insights](#)

2025 has been a challenging year for renewables. The new tax law, commonly referred to as the One Big Beautiful Bill Act, rolled back many clean energy tax credits and imposed new restrictions, ...

[Recent Developments in the Federal Multipronged Approach to ...](#)

Taken together, these efforts illustrate the Biden Administration's multipronged approach to incentivizing solar energy generation and other renewable energy sources in the United States.

[Trump administration to unveil tougher solar and wind subsidy rules](#)

Aug 14 (Reuters) - The Trump administration is expected as soon as Monday to take another step toward curbing the growth of renewable energy in the United States by making it harder for companies

[With Federal Support for Wind and Solar Waning. ...](#)

A new report from the think tank Clean Tomorrow tracks how states are expanding--or restricting--where renewable energy projects can be built.

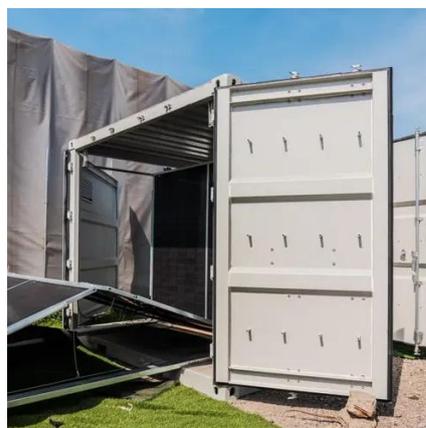

[Trump Administration Is Delaying Hundreds of Wind and Solar Projects](#)

The extra layer of scrutiny for wind and solar contrasts with actions by the Trump administration to make it easier and cheaper for companies to produce oil, coal, gas and nuclear power.

[A review of hybrid renewable energy systems: Solar and wind ...](#)

The review comprehensively examines hybrid renewable energy systems that combine solar and wind energy technologies, focusing on their current challenges, opportunities, and policy ...
