

Panama Wind Power Market Energy Storage Project

Overview

Recently, the integrated wind solar energy storage power station project developed by Ritar International Group has officially landed in Panama and successfully connected to the grid. Panama has launched a 500MW tender auction for renewables and energy storage, the first in Central America to include storage. The bidding process - held by the national secretary of energy and state-owned electricity transmission company, Empresa de Transmisión Eléctrica SA (ETESA) - is seeking. In an exclusive interview with pv magazine, Panamanian Energy Secretary Juan Manuel Urriola said the government will open the electricity market to private investment and revise regulations to enable energy storage.
