

Photovoltaic panel component distribution map

Photovoltaic panel component distribution map

U.S. Photovoltaic Database

The U.S. Large-Scale Solar Photovoltaic Database provides the locations and array boundaries of U.S. photovoltaic facilities, with capacity of 1 megawatt or more.

[U.S. Solar Manufacturing: A Supply Chain Analysis](#)

This interactive map showcases the U.S. domestic solar supply chain. This includes all known U.S. facilities that manufacture components for the solar sector and includes details on their ...

[Solar Resource Data, Tools, and Maps](#) , [Geospatial Data Science](#) , [NLR](#)

View an interactive map or download geospatial data on solar photovoltaic supply curves.

Global Solar Atlas

Solar resource and PV power potential maps and GIS data can be downloaded from this section. Maps and data are available for 200+ countries and regions. Please select a region or a country in the ...

Viewer , USPVDB

The USPVDB Viewer lets you discover, visualize, and interact with the USPVDB through a dynamic web mapping application.

Solar Resource Data and Maps

Click the images below to view maps of concentrating collector and tilted photovoltaic panel solar energy resources on BLM-administered lands in the six-state PEIS study area. These maps are based on ...

[Solar & Storage Supply Chain Dashboard - SEIA](#)

With this map, you can filter by product type and facility status, as well as create a drive-time radius from any map point to explore geographic distances to potential customers or suppliers.

[Solar Geospatial Data Tools , Geospatial Data Science , NLR](#)

Access our tools to explore solar geospatial data for the contiguous United States and several international regions and countries. This is a list of resources intended to help developers ...

Solar Infrastructure in the US

This map contains multiple layers showcasing solar infrastructure within the US. The map visualizes solar power plants, electric power transmission lines, and the photovoltaic (PV) ...

Solar Manufacturing Map

This map provides information about all of the solar photovoltaic (PV) manufacturing facilities in the United States and how they contribute to the solar supply chain.
