The Israeli client is a small to medium-sized commercial enterprise with high requirements for power continuity and stability in daily operations. To address intermittent power outages and reduce peak electricity costs, the client decided to deploy a high-performance battery energy storage system. With electricity prices hitting ₪0.65/kWh in Tel Aviv - 30% higher than Germany's average - Israeli homeowners and businesses are racing to adopt solar+storage solutions. Advice Electronics Ltd specializes in power supply systems, including solar inverters with MPPT (Maximum Power Point Tracking) functionality, which enhances energy. Rack-mount inverters provide a neat, organized and dependable way to protect your essential equipment from blackouts and other emergencies and city utility power problems. They mount neatly and out of the way on racks but will automatically switch from your local electric utility to your backup.
