

Recommend several home solar lights

Overview

To help narrow your choices, we spent two weeks testing 10 popular picks and rating them based on installation, light quality, appearance, durability, and value. Not everyone is ready or able to install rooftop solar panels or rig up a solar-powered water heater at home. But if you want to reduce your utility costs and your reliance on the grid, swapping out ordinary lights and other appliances for their solar-powered counterparts is one of the simplest. Over the past two years, we've tested 78 different outdoor lights (you read that right), including solar pathway, smart, spotlights, lanterns, wall-mounted, and string lights. We became solar light experts, if we do say so ourselves. It keeps you and your family safe when you are outside at night and allows for better visibility when you are walking in from your car or bringing in items from outside after the sun has gone down.
