

Rotterdam the Netherlands promotes new energy storage

Overview

Eneco and EP NL have announced a joint investment in a 50 MW / 200 MWh battery storage project at the Enecogen power plant in the port of Rotterdam. The battery will have a connection capacity of 50 MW and an energy storage capacity of 200 MWh, enabling it to supply electricity for four hours. This will. Rotterdam, a key industrial and logistics hub, is setting the global standard for sustainability and energy transition. Let's explore how this port city is solving wind energy's biggest challenge -.
