

# Safety precautions for loading and unloading photovoltaic panels

## Overview

---

This manual provides comprehensive guidelines for the safe and efficient Unloading and storage of solar photovoltaic (PV) modules manufactured and supplied by JAKSON Engineers Limited. In the process of loading and unloading, the forklift. If your modules are damaged on arrival, notify the driver immediately, notify carrier and LONGi staff within 24 hours of delivery, and provide a record with detailed information within 48 hours of delivery. See claims and warranties for full details. This manual will help educate workers and employers about workplace hazards associated with PV install s used to harness the power of the sun. These are three of the most common electrical hazards with PV systems that you. This manual is for DMEGC solar PV module unloading instructions. To ensure the safety of unloading of PV modules, please read this manual carefully.

## Safety precautions for loading and unloading photovoltaic panels

### [Solar PV Module Handling, Storage, Installation](#)

When lifting, the box should be kept balanced to avoid tilting. In order to minimize the impact of sling on the safety of goods in the process of hoisting, the box should be supported during loading and ...

### Unloading Handling & Storage Manual

This manual provides comprehensive guidelines for the safe and efficient Unloading and storage of solar photovoltaic (PV) modules manufactured and supplied by JAKSON Engineers Limited.

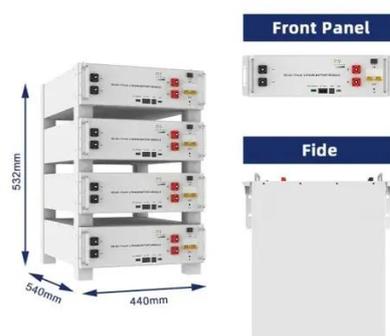

### [UNLOAD/TRANSPROTATION/STORAGE OF SOLAR PANELS](#)

Precautions and general safety rules: (1) Modules should be stored in a dry and ventilated environment to avoid direct sunlight and moisture and extra precautions should be taken to ...

### Unloading& Unpacking Manual-20230106

To ensure the safety of unloading of PV modules, please read this manual carefully. In the process of unloading, the forklift should be selected reasonably according to the size and weight of the goods.

Shock Or Electrocutation from Energized Conductors  
Arc Faults That Spark Fires  
Arc Flash Leading to Explosions  
Choose The Correct Solar Testing Equipment  
About The Expert  
Related Resources  
As with any electrical system, fire is always a potential hazard. Perhaps one of the most common causes is electrical arc faults, which are high power discharges of electricity between two or more conductors. The heat caused by this discharge can cause the wire insulation to deteriorate and thus cause a spark or "arc" that causes a fire. PV systems

## **Unloading & Unpacking Manual-20230106**

To ensure the safety of unloading of PV modules, please read this manual carefully. In the process of unloading, the forklift should be selected reasonably according to the size and weight of the goods.

### [PV Module Unpacking, Handling and Storing Guide](#)

This guide serves as a reference for inspecting, transporting, unpacking, handling and storing LONGi PV solar modules to ensure safe practices for you and the modules.

## Safe Practices for Photovoltaic Systems

It is the responsibility of the PV system designer to verify that the structural components of a building are capable of supporting the dead loads and live loads of a roof-mounted PV system.

### Packaging Datasheet1

To ensure the safety of loading, unloading, unpacking, and storage of PV modules, please read this manual carefully. When you need to unpack and install the modules, you can search and download ...

### Solar PV Electrical Safety

Learn how to stay safe while working with or around solar panels. Solar disconnects only disconnect buildings from PV panels. Panels can still generate power. If possible, turn off the AC side of solar ...

### [Top 3 Solar Panel Safety Precautions , Fluke](#)

These are three of the most common electrical hazards with PV systems that you can encounter, along with specific solar PV safety control measures you can take to reduce their risk.

### STORAGE AND UNPACKING INSTRUCTION OF ...

This manual is for Jinko solar PV module storage and unpacking instructions. To ensure the safety of loading, unloading, unpacking and storage of PV modules, please read this manual carefully. When
