

Senegal electric vehicle costs

Overview

In Senegal, the upfront cost of an electric vehicle (EV) includes the base price, import duties, registration fees, and insurance. High import taxes significantly increase the overall cost, though potential future incentives could help reduce this burden. EV Models Available: Popular options include the BYD Atto 3 (\$35,000–\$40,000), Omoda E5 (\$30,000–\$35,000), and MG4 (\$28,000–\$33,000). Costs: EVs in Senegal come with high import duties, but lower running. The Senegal Electric Vehicle Market accounted for \$XX Billion in 2021 and is anticipated to reach \$XX Billion by 2030, registering a CAGR of XX% from 2022 to 2030. Senegal will launch services for all-electric buses. Together with its partners Keolis and Fonsis, infrastructure investor Meridiam is. The activity aims to displace aging fossil-fuel vehicles with robust, excellent value-for-money electric cars, in order to cut carbon emissions and reduce air pollution in Senegal. Our insights help. MA has provided important technical assistance to Senegal's Ministry of Transport and Infrastructure (MITTA) by developing comprehensive recommendations for an electric mobility regulatory framework.
