

# Solar industry port of Spain

## Overview

---

Port Bilbao (Spain) received authorization to develop a photovoltaic (PV) solar plant to provide renewable energy for vessels berthed at 2 of its 3 cruise docks - Getxo 2 and Getxo 3. APM Terminals Valencia is embarking on an ambitious solar energy project as part of APM Terminals' ambition to be carbon neutral by 2040. The project. Costs range from €450–€650 per kWh for lithium-ion systems. [pdf] [pdf] The Príncipe Felipe Dock facility, located between the COSCO terminal and the Yacht Club on the breakwater, features 2,990 panels with. An entrepreneur planning a new solar module factory often focuses on the most visible elements, like state-of-the-art machinery, building layout, and initial investment figures. While these are undoubtedly critical, a project's profitability can hinge on an often-underestimated factor: logistics.
