

Solar inverter bill of materials

Overview

A Bill of Materials (BOM) is the complete, itemized list of all equipment, hardware, and components required to install a solar PV system. It includes everything from solar modules and inverters to mounting hardware, wiring, breakers, connectors, and BOS (Balance of System) components. What Is a Bill of Materials in Solar Projects?

- 1.

Solar inverter bill of materials

[Installation Check-List: 2.1.bill of Material](#)

A bill of materials listing the components, descriptions, ratings, and quantities needed for the system, including solar panels, mounting structure, wiring, batteries, inverter, and charge controller.
