

Solar photovoltaic panels 0 electricity bill

Overview

One of the primary reasons homeowners adopt solar panels is to reduce their electricity bills. In fact, according to Aurora Solar's 2025 Solar Snapshot, that's the case for 72% of homeowners. Most people decide to get a solar power system for their home because they want to save as much money as possible on utility costs while minimizing their impact on the environment. To determine how, Solar doesn't eliminate electric bills entirely: 99% of solar customers still receive monthly utility bills due to grid-tied systems, but bills are dramatically reduced from an average of \$154 to as low as \$35-45 per month.
