[5 Ways to Improve China-Africa Cooperation on Clean Energy](#)

China committed to increase its funding for "small and beautiful" clean energy projects in sub-Saharan Africa. But this will require overcoming key obstacles.

[Chinese solar firms eye chances to fill African infrastructure](#)

Several Chinese solar firms, leaders in the global photovoltaic (PV) sector, are eyeing Africa's "blue ocean" market as the continent continues to deal with intermittent power shortages. Some 600

China solar PV industry insights

China's PV industry posted sharp declines in upstream production and profit margins in the first half of 2025, even as domestic installations reached record highs and new export markets expanded, ...

[Competition in Africa's Solar Power Sector Heats Up as Chinese](#)

The potential of Africa's power generation market is huge, so Chinese PV firms should continue to deepen their presence on the continent, accurately matching their products with market demand and finding ...

[China's prowess in solar aids Africa's green transition](#)

A taxi driver prepares to test-drive a Chinese new energy vehicle in Mombasa, Kenya, on Aug 16. WANG GUANSEN/XINHUA Complementary resources China's advantages in the renewable energy industry ...

[Africa's Solar Imports from China Surge 60% in ...](#)

Africa's solar imports from China hit 15 GW in 2025, up 60%. Record growth signals a clean energy boom, but capacity still lags global pace.

[Africa Becomes a Bright Spot for China's Wind and Solar Exports](#)

Amid a global slowdown in photovoltaic (PV) shipments, Africa has emerged as a rare growth market for Chinese renewable energy exports. According to a new report by UK-based think tank ODI ...

[African Solar Panels Are Cost-Competitive With China](#)

Africa's untapped potential for solar power generation and cost-effective module production could reshape the global renewable energy landscape while addressing the continent's own growing energy

[Solar, Wind Projects Dominate China's Renewable](#)

The report reveals that from 2010 to 2024, China invested approximately US\$66 billion in Africa's energy sector, with one-fifth of that focused on renewable energy development and infrastructure. ...

[The Development of Chinese Investments in the Renewable ...](#)

This enables African countries to learn from China's experience in developing renewable energy by strengthening joint cooperation and sharing successful practices. Accordingly, we pose the following ...
