

Trina photovoltaic panel power test

Overview

All Trina Solar 400W panels deliver their rated power under Standard Test Conditions (STC), which include 1,000 watts per square meter of irradiance, 25°C cell temperature, and 1. However, real-world performance varies based on environmental conditions. Founded in 1997, Trina Solar has been delivering residential and commercial photovoltaic solar panels across the globe from its home base in China. Our solar experts gave Trina an Excellent rating because of their long-standing reputation and affordable prices. Why is off was detected in dual-glass modules. Under the stringent requirements of the IEC 61215 series, the hail test of Trina Solar's Vertex 670W modules simulated the shock of hail.
