

Turkmenistan explosion-proof solar panel manufacturer

Overview

Explore Turkmenistan solar panel manufacturing with market analysis, production statistics, and insights on capacity, costs, and industry growth trends. The MSP20Ex solar module is an ATEX classified photovoltaic module for use in isolated systems where no electrical power is available, typically on offshore oil and gas platforms classified as a gas explosion risk area. MSM has designed this module under the strictest safety regulations, complying. Solar Power Solutions Pvt Ltd is the premier solar company in Turkmenistan. The Photovoltaic Module is highly resistant to water, abrasion, hail impact and other severe weather conditions, making it suitable for use in any climate. This high quality green power supply system with virtually no downtime, allows you to power almost any system on remote or offshore applications like: For hazardous area applications such as LNG. company in Turkmenistan that has a license to manufacture and install solar panels on its territory. The company was founded in 2015 by enthusiasts who care about the convenience and accessibility of one of the most common alternative energy sources – solar and wind.
